## Lakeland MicroMax® NS Cool Suit

Like the MicroMAX® NS coverall, the MicroMAX NS Cool Suit™ protects against dirt, grease and spills but features increased breathability with an added spunbond polypropylene back panel. A superb pattern design and an elastic back waist offer improved comfort and fit. Front and sides made of microporous film on a polypropylene substrate provide barrier protection and a flap cover over the zipper protects against splashes. The breathable back panel offers only a light particulate barrier. Stay cool while protecting yourself with the MicroMAX NS Cool Suit™.

## Lakeland SafeGard® SMS

SafeGard® SMS Protective Garments from Lakeland Industries, Inc. are well named. They keep employees safe from numerous dry particles and water-based liquids. SafeGard® garments can be used in work environments where hazardous or non-hazardous contaminants may be present. These garments feature 3 tough layers to keep contaminants out. The 2 outer layers are made of spunbonded filaments that stand up to tearing and abrasion. The inner layer is of melt-blown polypropylene microfibers that filter out potentially harmful particulates and liquids. Breathability is the bonus; air and water vapor pass through for superior wearer comfort. Coveralls feature a deluxe pattern with 2 sewn pockets and elastic in the back.

## Sellstrom® Gravit-Eye™ Portable Eye Wash Unit

The Sellstrom® Gravit-Eye™ self-contained gravity flow eye wash unit uses gravity to deliver water through dual spray heads. The unit delivers over fourteen gallons (53 liters) of water for fifteen minutes, thus complying with the provisions of ANSI Z358.1-2004 for eye washes. Units have a rugged plastic tank that can be installed in a wide variety of locations. These units are ideal for use where a continuous supply of potable water is not available, especially in remote plant areas, low traffic and/or low hazard areas. Tank has built-in carrying handle, heavy wall construction and reinforced ribs to support weight of unit. Furnished with epoxy coated steel bracket for mounting unit on wall. Unit can also be placed on counter top or other flat surface. One bottle of 8 oz. bottle of bacteriostatic additive is included to protect against growth of bacteria and other impurities in portable unit. Unit is completely assembled and water tested prior to shipment.

Sellstrom's water collection tanks provide a quick, clean option for water disposal and testing. The tank is equipped with a roller base that locks into place so it is easy to move and store around facility. A drain plug is also provided for easy disposal.

### Ironguard Accu-Tilt Fork Tilt Level Indicator

The Accu-Tilt shows the operator the level of the forks at all times thereby reducing potential damage by piercing product or racking and increasing productivity by eliminating the guess work.

SKU	Description	UOM	Price
IRN701000	Accu-Tilt Fork Tilt Level Indicator	EA	\$174.14

### Ironguard Accu-Height Fork Height Level Indicator

The higher the lift, the harder it is to judge the correct height of the forks. Accu-Height is a simple sticker set that allows the operator to quickly know the right height of the forks at various rack levels. By matching the indicator sticker with the color marker, the correct fork height is obtained to enter the pallet safely. The second marker indicates the safe lift height of the pallet to be either removed from the rack or to be placed in to the rack.

## Ironguard Forklift Battery Watering Gun

Keep your batteries properly filled and keep your battery tops dry by using our SFS watering gun. The forklift battery watering gun will help with the battery maintenance and care for your forklift battery. The front trigger battery watering gun safely and easily adds water to your industrial batteries. The gun automatically shuts off at the correct fill level every time. This gives an accurate cell fill every time without back strain or the risk of an acid splash.

SKU	Description	UOM	Price
IRN701180	Forklift battery watering gun	EA	\$130.43

## Ironguard Dissipater Forklift Battery Cap

The Dissipater Battery cap makes battery maintenance easy with its revolutionary technology. It maximizes your forklift battery's potential and reduces watering intervals by returning 80% of the evaporated water back into the battery. Its ergonomic design and durable housing that is resistant against battery acid makes the Dissipater an effective battery maintenance tool. Use the Dissipater cap on all industrial batteries such as a forklift battery, lift truck battery, Aerial Work Platform battery and golf cart battery.

### Ironguard Trailer Lock Power Lever

The Trailer Lock Power Lever makes short work of stubborn container door handles that are difficult to move because of their small size and are often jammed, especially in snow and ice conditions. Just slip the tool over the door locking handles and easily use the extra leverage provided by the Trailer Lock Power Lever to open the doors. The extra leverage reduces operator strain and can help prevent injury. Additional safety is provided by the handle guard to help prevent scrapes and bruises. The Trailer Lock Power Lever can also be used as a "Tire Thumper" to check for adequate tire pressure.

## UltraTech Ultra-Containment Berms® - Collapsible Wall Model

Economical design sets up quickly - provides secure containment. The Collapsible Wall Model Containment Berm features rugged PVC sidewall assemblies for sidewall support. Simply swivel the "feet" of the PVC supports to lower or raise the sidewalls in just seconds! Meets SPCC and EPA Container Storage Regulation 40 CFR 264.175.

SKU	Description	UOM	Price
ULT8400	Containment Berm, collapsible wall, 10' x 10' x 1'	EA	\$1433.33
ULT8403	Containment Berm, collapsible wall, 6' x 6' x 1'	EA	\$922.81

## UltraTech Ultra-Containment Berms® - Rapid Rise Model

Sidewalls stay lowered and out of the way until they are needed. Sidewalls remain down during normal operations, loading and unloading. Vehicles and equipment can drive in and out with no set-up or take-down required. In the case of a spill, the foam ring around the top perimeter of the Containment Berm rises with the level of spilled liquid. Helps meet EPA Container Storage Regulation 40 CFR 264.175 and SPCC requirements. Standard material of construction is Copolymer 2000™.

SKU	Description	UOM	Price
ULT8432	Containment Berm, rapid rise, 10' x 10' x 1'	EA	\$1638.60
ULT8437	Containment Berm, rapid rise, 12' x 26' x 1'	EA	\$3450.88

## UltraTech Ultra-Drain Seals®

Stop spills from going down the drain. Reinforced mesh is "sandwiched" between layers of polyurethane - increases durability and resistance to tearing. Unique, urethane construction allows the pad to deform and seal off most drains — temporarily "seals" to any smooth surface. A valuable addition to any emergency response plan, spill kit or stormwater management program. Unlike some alternative products, BOTH sides will quickly seal drains - there is no specified "top" or "bottom". Flexible, non-absorbing material with reinforced, tear-resistant mesh. Resists oil, water and most aggressive chemicals, cleans with soap and water.

**NOTE:** Not intended for long-term outdoor use (more than two (2) hours), as UV exposure and/or heat for extended periods can degrade the product. For applications where extended use may be required, the Ultra-Drain Seal Plus should be considered.

*Due to the nature of softer urethane, the physical properties of these products may change with exposure to certain environmental conditions like temperature, humidity and UV radiation. Regular inspection of the stored product should be done to ensure it is in a usable state.*

## Justrite Type II Red Safety Cans with Hose

Engineered for the highest performance in safety, compliance, and convenience.

Going beyond protection and compliance, AccuFlow™ Type II Safety Cans provide fast, precision pouring when handling flammable liquids. Patented, innovative manifold automatically vents for smooth, slug-free liquid flow, while the comfortable Safe-Squeeze® trigger offers maximum control when pouring. A 9" (229mm) flexible metal hose ensures offers targeted pouring into small openings. Fill port with ergonomically designed handle makes filling easier than ever.

Protection features include a long lasting, stainless steel flame arrester that dissipates heat to prevent flashback ignition and a gasketed, self-closing leak tight lid that automatically vents to guard against rupture or explosion. Warning label with extra large ID zone permits user to identify contents, department location, or individual user name. All can sizes have extra capacity for mixing in additives for two cycle engines.

## Justrite Red Oily Waste Can with Foot Operated Cover

Dispose of oil soaked rags and protect your facility from fires that can start due to spontaneous combustion, sparks or careless use of smoking material. OSHA compliant oily waste cans are essential whenever solvent cloths and wiping rags are used. Rags and cloths soaked with solvents, thinners, linseed oil, combustible adhesives and other flammable liquids present a serious fire risk when improperly discarded. The specially designed lid opens no more than 60 degrees and stays closed when not in use, isolating contents from fire sources. Round construction and elevated bottom encourage circulation of air around the can to disperse heat and reduce moisture build-up and rusting. Container has a high-grade coated steel body construction with a durable powder-paint finish. FM tested and approved; UL listed.

## Accident Prevention Signs

Sign standards, OSHA 29 CFR 1910.145 and ANSI Z535, provide guidance for specifications, design, and application of accident prevention signs. Signs indicate potential, type, and degree of hazard that may lead to accidental injury or property damage and convey a rapidly understood message on how to avoid hazards.

- **Adhesive Vinyl (VS)** Flexible 4-mil thick vinyl with permanent acrylic adhesive back. Moisture resistant with scored backing for easy peel-off and apply. Ideal for light-duty use.
- **Plastic (VP)** Moderate-duty .055" thick plastic ideal for indoors and sheltered outdoor environments. Impact resistant with 3/16" corner mounting holes.
- **Aluminum (VA)** Rigid .040" aluminum printed and protected with UV overlamine. Durable for indoor and outdoor harsh environments. 3/16" corner mounting holes.
