Novel Coronavirus (nCoV) Infection

Overview

The Centers for Disease Control and Prevention (CDC) and World Health Organization (WHO) are closely monitoring an outbreak caused by a novel (new) coronavirus first identified in Wuhan, Hubei Province, China. Chinese authorities identified the new coronavirus, which has resulted in hundreds of confirmed cases in China, including cases outside Wuhan, with additional cases being identified in a growing number of countries internationally. These numbers will likely grow given the high amount of travel associated with the Lunar New Year holiday.

It has been confirmed that the virus can spread from human to human although specific routes of transmission (i.e. airborne, direct contact, ingestion, etc.) have yet to be definitively determined. Common symptoms include runny nose, headache, cough, sore throat, fever, and a general feeling of being unwell.

The CDC is providing the following precautions for health care providers:

"Healthcare providers should obtain a detailed travel history for patients with fever and respiratory symptoms. For patients who traveled to Wuhan on or after December 1, 2019 and had onset of illness within 2 weeks of leaving, consider the novel coronavirus outbreak in China when evaluating a patient with these symptoms and notify infection control personnel and your local health department immediately."

Although routes of transmission have yet to be definitively determined, CDC recommends a cautious approach to interacting with patients under investigation. As of March 2020 ask such patients to use respiratory protection (i.e., a respirator) that is at least as protective as a fit-tested NIOSH-certified disposable N95 filtering facepiece respirator before entry into the patient room or care area as soon as they are identified. Conduct their evaluation in a private room with the door closed, ideally an airborne infection isolation room, if available. Personnel entering the room should use standard precautions, contact precautions, and airborne precautions and use eye protection (goggles or a face shield). For additional infection control guidance, visit [CDC's Infection Control webpage](#)."

This situation is rapidly changing and the public, as well as health care workers are advised to refer to the latest CDC and WHO guidelines for protection guidance.

Information and guidance from the CDC and WHO can be found at the following links:

CDC – <https://wwwnc.cdc.gov/travel/notices/alert/novel-coronavirus-china>

WHO – [https://www.who.int/publications-detail/infection-prevention-and-control-during-health-care-when-novel-coronavirus-\(ncov\)-infection-is-suspected](https://www.who.int/publications-detail/infection-prevention-and-control-during-health-care-when-novel-coronavirus-(ncov)-infection-is-suspected)

OSHA also has provided interim guidance to employers

DuPont Tyvek® 400 Coverall

- Enables a greater range of movement while stretching and bending
- Provides a more tailored fit
- Offers reinforcement in high stress areas for fewer blowouts
- Elastic waist to better position the garment.
- Laydown collar
- Open wrists
- Open ankles
- Available sizes: MD - 4X

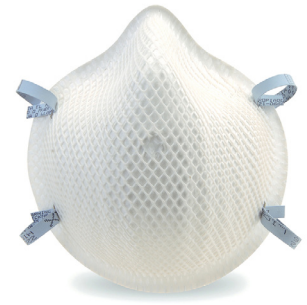

Item #:	Description:
MSC1412	Tyvek 400 Standard Coverall, White

Disposable Polypropylene Lab Coat

- Disposable lab coat made with protective non woven multilayer material
- Blue with snap front closure
- 100% SMS, 40 gram polypropylene
- Breathable
- Fluid resistant
- Comfortable
- Knit collar and cuffs
- 3 pockets

Item #:	Description:
IROW5200B	Disposable Polypropylene Lab Coat, Blue

Moldex 2200N95 Series Particulate Respirator

- Dura-Mesh® shell resists collapsing in heat and humidity
- Molded nose bridge seals easily
- Facepiece is naturally contoured
- Straps are securely attached
- Softspun® lining
- Soft foam nose cushion for added comfort
- NIOSH certified to have a filter efficiency of 95% or greater for non-oil based particulates
- Certified under 42CFR84

Item #:	Description:
MOL2200N95	N95 Respirator, Medium/Large, 20/bx
MOL2207N95	N95 Respirator, Low Profile, 20/bx
MOL2200N95HV	N95 Respirator, High Visibility, MD/LG, 20/bx

Moldex 2300N95 Series Particulate Respirators With Exhale Valve

- Exhale valve lets workers breathe easy and stay cool
- Dura-Mesh® shell resists collapsing in heat and humidity
- Molded nose bridge seals easily
- Facepiece is naturally contoured
- Straps are securely attached
- Soft foam nose cushion for added comfort
- NIOSH certified to have a filter efficiency of 95% or greater for non-oil based particulates
- Certified under 42CFR84

Item #:	Description:
MOL2300N95	N95 Respirator, Medium/Large, 10/bx
MOL2301N95	N95 Respirator, Small, 10/bx

Pleated Face Mask

- 4 oz pleated face mask
- Elastic ear loops
- Color: light blue
- One size fits most

Item #:	Description:
MA69011LB	Pleated Face Mask

General Purpose Mask with Ear Loop

- 3-Ply Pleated Construction: 25 GSM Light-Blue Polypropylene, 25 GSM White Melt-Blown Polypropylene, 25 GSM White Polypropylene
- Latex-Free Ear Loops
- Adjustable Flat Nose Piece
- 50 Pieces Per Dispenser

Item #:	Description:
CORDELM100	General Purpose Mask, 50/bx

MOL7020	Pre-Filter Retainer (for use with 8910)
MOL7990	P100 Particulate Filter Cartridges, 1 pair/bag

Moldex 8000 Series Reusable Half Mask & Organic Vapor/Acid Gas Cartridges

- Soft, durable facepiece and light weight design plus extra-wide sealing area provides all-day comfort
- Exhalation valve positioned for better communication
- Cartridges have a snap-in mount for easy replacement and no mistreading
- New inhalation valve on each cartridge
- Living hinge allows head harness to be folded comfortably around neck when not in use.

Item #:	Description:
MOL8001	8000 Series Reusable Half Mask, SM
MOL8002	8000 Series Reusable Half Mask, MD
MOL8003	8000 Series Reusable Half Mask, LG
MOL8020	Pre-Filter Retainer (for use with 8910)
MOL8990	P100 Particulate Filter Cartridges, 1 pair/bag

Moldex N95 Particulate Filters

- All Moldex Particulate Filters are NIOSH certified
- Can be used with 7000, 7800 and 8000 series respirators
- Use the 8910 N95 Filter with the Pre-Filter Retainer and any Moldex gas/vapor cartridge
- Meets heat and flame resistance in accordance with ANSI/ISEA 110-2009 Section 7.11.1.
- Fiberglass free
- 100% PVC-Free, like all Moldex products & packaging - for a greener alternative

Item #:	Description:
MOL8910	Particulate Filters, 1 pair/bag

Honeywell North® 7700 Series Half Mask

- Converts to PAPR or supplied air respirator. Latex free.
- Lower headstraps stretch and move with the worker for more comfort without pulling on the facepiece.
- The benchmark in half masks designed to provide maximum comfort, fit and performance.
- Various thickness in sealing area for improved comfort and support - more support around the chin area and more flexibility on the nose bridge.
- Wide, contoured sealing area for great fit.

Item #:	Description:
NORR7700-30S	7700 Series Half Mask, Small
NORR7700-30M	7700 Series Half Mask, Medium
NORR7700-30L	7700 Series Half Mask, Large

Honeywell North® N series, P100 Low Profile Flexible Filter

- P100 filters provide 99.97 percent protection for all particulates
- Low profile
- Flexible filter
- 2 per pack

Item #:	Description:
NORR75FFP100	P100 low profile, flexible filter. 2/pack

Honeywell North® Primair® 700 Series Powered Air Purifying Respirator

- All-in-one, integrated unit
- Side-mounted battery
- Ergonomic belt
- Smart breathing tube connection
- Efficient keypad - illuminated, easy-to-read display; large buttons for easy operation
- Filter connection - P100 filter locks into place with a quarter turn, assuring workers they are secure.

Item #:	Description:
NORRPA701HED	PAPR Starter Kit, HEPA, Decon

* **ALL ITEMS NON-REFUNDABLE & MAY NOT BE RETURNED OR EXCHANGED.** Due to supply chain issues, we have listed more selections than normal in some categories.
